Stunning in its simplicity of lines and its artful hardware, the Briallen Winter Gray Box has an elegant winter-gray stained wood and an impressively sized cast aluminum flower handle that steals the show. The stylized floral accent, which we've treated to an antique silver finish, also serves as a decorative element to make this box a bit of haute couture for a space. Place it on a dresser in a beautifully designed boudoir, on a coffee table or on a side table in a lovely den and watch it blossom in the space! We also offer this piece in a black/gold combination.
